I would like to thank all the former employees, associates, sources, and contacts for their continued support and efforts to contribute to the writings I have been able to continue through their great efforts. I would also like to thank those who have looked after not just myself, but my family, and shown them support and kindness.

Everything we at Princeton Economics that was our mission to gather information and bring together the most widely covered global economic perspective, has been a effort that is now bringing us to that fateful crossroads in history. There are those who are trapped by the past and cannot see the dynamic evolution that causes history to repeat, but like lightning, never quite precisely the same way twice. In 1914, Britain reached its peak as the center of the global economy. It passed that torch to the United States who by 1929 became the leading world economy who was also a CREDITOR nation just as China is today. There will be no 1930s style depression, for the cards are nowhere near the same. Yet China will become the leading world economy by 2016, and then suffer its 1929. The West is doomed and it will collapse from its own debt. We borrow with no intent of ever paying off the debt, and somehow both Congress and the majority ignore this fact just as they had ignored the problems in mortgages that violated common sense.

No matter what country you live in, it is the duty that falls upon the shoulders of every reader to do what you can to get reality to manifest. Feel free to send this report to every government, friend, and member of the press around the world. If we do not get the debate started, we stand no chance of saving the future for ourselves and our posterity. We can reach that next never in political-economic evolution only through the hard work of everyone. For this reason, this is provided as a free service.

There is a NEW DATABASE that will be used for special updates provided exclusively to those who register. I want to thank you all once more for your support and for your contribution to try to help society survive the coming storm.

GOVERNMENT TO GET POLITICAL CHANGE MOVING**

This Report may be forwarded as you like without charge to individuals or governments around the world. It is provided as a Public Service at this time without cost because of the critical facts that we now faced economically. The contents and designs of the systems are in fact copyrighted. At a future date, a new edition of the 1986 *The Greatest Bull Market In History* will be released and a new book will soon be published on the model itself - *The Geometry of Time*. It is vital that we do not forget this is a world economy and the arrogance that any nation can dictate to the world is just insanity. Every nation effects all others no different than if one nation were to pour all its toxic waste into the ocean. Everything is interlinked and solutions are never isolated events.

Thank You For Your Support

I would like to thank so many people for their continued support. What we face in the years ahead is not going to be easy. There will be NO Great Depression as there was in the 1930s. In fact, where America was bankrupt in 1896 and Britain was the center of the world economy reaching its zenith by 1914, its fall from grace eliminating the title "Great" passed the torch to America and by 1929, the USA had become the largest economy in the world measured both by productive capacity as well as by the standard of its gold reserves. What took place in 34.4 years (4 x 8.6), is once again unfolding from 1989 as the torch is now passed from America to China.

We are on the verge of such a profound economic fall from grace, that we are flying too close to the flames and we may crash and burn through the turmoil of civil unrest. I cannot stress enough that we must understand the nature of the problem before we can comprehend the solution for the future. I would like to think we can make a difference. But to do so, it will take many in ALL nations to DEMAND that political change is addressed BEFORE the next crisis.

Since politicians act in their own self-interest, we are most likely doomed. To get them to do something BEFORE the crisis, is not realistic. Nevertheless, all we can do, is kick up our heels and DEMAND change, even though they will ignore the people. We are in such a economic crisis, it is likely that even Obama may be a one term president. The status quo, is not what it use to be.

There are people in various governments around the globe who can see the crisis coming. I remain in contact with them and pray that they will be able to gather the support within government before it is beyond all hope. Each of us is charged with a duty to try our best to save our own future and that of our children. I have been working very hard to explain the full scope of the problem and the solutions we must embrace to be released in a book format.

Please register at ArmstrongEconomics.COM. I will be providing some special reports to those who register.

With each event, the solutions that emerge are merely a restoration of errors that are seen as setting in motion the previous crisis. There is so much that has to be restructured, to address it all and how it truly works requires a book. It is almost done.
